ELEMENTARY

Just a few of the exciting books available at Mrs. Nelson's Book Fair!

Front Desk By Kelly Yang

Mia Tang has a lot of secrets.

1: She lives in a motel, where her parents clean the rooms and she manages the front desk.

2: Her parents hide immigrants in the vacant rooms. 3: She wants to be a writer. But her mom thinks

she should stick to math because English is not her first language. It will take all of Mia's courage, kindness and hard work to get through this year. Will she be able to hold on to her job, help the immigrants and guests, and go for her dreams? \$7.99

Guts By Raina Telgemeier

Raina wakes up one night with a terrible upset stomach. Her mom has one, too, so it's probably just a bug. Raina eventually returns to school, where she's dealing with the usual highs and lows: friends, not-friends, and classmates who think the school year is just

one long gross-out session. It soon becomes clear that Raina's tummy trouble isn't going away... and it coincides with all her worries about food, school, and changing friendships. What's going on? \$12.99

The Hotel Between By Sean Esley

Cam and Cass have never known their parents. They've been told their mother died, and Cass is certain their father abandoned them.

Cam isn't so sure. When The Hotel Between appears, they discover that anything is possible: doors that open to countries all over the world, corridors that can be altered on a whim and stone elephants that come to life. Cam has a hunch his father is somehow connected to this magical place, and may even be lost within its hidden halls, along with dangerous secrets. \$8.99

Lions & Liars By Kate Beasley

Fifth grade is off to a terrible start when Frederick is sent to a disciplinary camp for troublesome boys. His fellow troop mates—Nosebleed, Specs, The Professor, and little-yet-lethal Ant Bite—are terrifying. But in between trust-building exercises

and midnight escape attempts, a tenuous friendship grows between them. Which is lucky, because a Category 5 hurricane is coming and everyone will have to work together to survive! \$7.99

Saving Winslow By Sharon Creech

Louie doesn't have the best luck when it comes to caring for small creatures. So when his father brings home a sickly newborn donkey, he's determined to save him. He names him Winslow.

Everyone worries that Winslow won't survive, especially Louie's quirky new friend, Nora, who has experienced loss of her own. But as Louie's bond with Winslow grows, surprising and life-altering events prove that this fragile donkey is stronger than anyone could have imagined. \$6.99

Spy School Goes South By Stuart Gibbs

Thirteen-year-old Ben Ripley has been caught in the snares of SPYDER more than once and knows well enough to be suspicious of anything that seems too good to be true—

despite needing special tutoring in advanced survival techniques. So when Murray Hill finally breaks his silence with an offer to hand over the SPYDER elite, Ben knows that there must be something going on. But his hesitation doesn't stop the mission. \$8.99

Storm Runner By J. C. Cervantes

Zane has always enjoyed exploring the volcano near his home. What he doesn't know is that the volcano is a gateway to another world. A new girl at school, Brooks, informs him that he's destined to release an evil

god from the ancient Mayan relic, unless she can find it first. Together they embark on an adventure full of surprising discoveries, dangerous secrets and an all-out war between the gods, one of whom happens to be his father. \$7.99

Until Tomorrow, Mr. Marsworth By Sheila O'Connor

Set in the summer of 1968, a richly profound relationship develops between elderly recluse (and "draft dodger") Mr. Marsworth and 11-year-old Reenie Kelly who delivers

his newspaper. Reenie is trying to save her oldest brother from being drafted and, through written correspondence, seeks Mr. Marsworth's help. Stunning secrets are revealed and various thoughtful perspectives on the Vietnam War are represented in this heartwarming novel. \$8.99

Voyage of the Dogs By Greg van Eekhout

Lopside is a Barkonaut, a specially trained dog who assists human astronauts on missions in space. He and the crew aboard the spaceship Laika are en route to set up an outpost on a distant planet. When the mission takes a

disastrous turn, the Barkonauts on board suddenly find themselves completely alone on a severely damaged ship. Survival seems impossible. But these dogs are Barkonauts—and Barkonauts always complete their mission. \$6.99
